

功课和练习 第11-2课

在数字线上往回数进行减法计算

再看！ Find $917 - 322$.

Here is one way.

I can count back by 100s, 10s, and 1s or make bigger jumps to find $917 - 322$.

So, $917 - 322 = 595$

家庭活动 Tell your child to find $445 - 152$ using an open number line.

Use an open number line to find each difference.

1. $925 - 230 = \underline{\hspace{2cm}}$

2. $384 - 126 = \underline{\hspace{2cm}}$

Solve each problem using an open number line.

3. © **MP.4 Model** 464 grapes are in a basket. 126 of the grapes are red and the rest are green. How many grapes are green?

_____ green grapes

4. © **MP.4 Model** Gabby has 592 bottle caps. She gives 215 bottle caps to Leroy. How many bottle caps does Gabby have left?

_____ bottle caps

5. **Higher Order Thinking** Write a math story for $348 - 144$. Draw an open number line to solve the problem.

$348 - 144 =$ _____

6. © **Assessment** The open number line below shows a subtraction problem. Complete the equation. Write the numbers that are used to subtract and the difference.

_____ - _____ = _____
