

# 功课和练习 第11-5课

## 用模型来减

**再看!** You can follow these steps to subtract three-digit numbers.

Find  $327 - 164$ .

**Step 1:** Subtract the ones. Regroup if needed.

**Step 2:** Subtract the tens. Regroup if needed.

**Step 3:** Subtract the hundreds.

Think: Regroup  
1 hundred for 10 tens.  
Draw place-value blocks  
to help.

$$327 - 164 = \underline{163}$$

**家庭活动** Have your child draw place-value blocks to model and find  $583 - 274$ .

Subtract to find each difference.  
Draw place-value blocks to help.

Solve the problems below. Remember to regroup when you need to.

3. © **MP.8 Generalize** Subtract. Then circle the problems where you regrouped to solve.

- 3	7	1

4. **Higher Order Thinking** Look at the differences in the problems above. Find two that you can use to subtract and get a difference of 354. Then complete the workmat to show your subtraction.
