

功课和练习 第12-7课

测量长度 用不同的 公制单位

再看！ You can measure using different units.

Andy measures the length of the television using both centimeters and meters.

The television is about _____ meter long.

The television is about _____ centimeters long.

It takes fewer meters than centimeters to measure the television.
If you use larger units, you will use fewer of them.

家庭活动 Select two objects in your home, such as a table or a window. Ask your child if he or she would use more centimeters or meters to measure each object.

Measure each object using centimeters and meters.
Circle the unit you need fewer of to measure each object.

1.

about _____ centimeters fewer centimeters
about _____ meters fewer meters

2.

about _____ centimeters fewer centimeters
about _____ meters fewer meters

3. © **MP.1 Make Sense** Circle the objects that are easier to measure using centimeters. Cross out the objects that are easier to measure using meters.

4. **Higher Order Thinking** Shane and Karen want to measure the length of a soccer field. Should they use centimeters or meters to measure it? Explain.

5. © **Assessment** Carlos measures the length of a couch in centimeters and meters. How will his measurements compare?

Choose Yes or No.

- more centimeters than meters Yes No
- fewer centimeters than meters Yes No
- fewer meters than centimeters Yes No
- the same number of centimeters and meters Yes No
